Churley Dryden, of the Journal, says back into the game.

If Freedman will keep his mouth closed he will have no reason for closing his gates.

Ed Hanlon and J. Earl Wagner are th two magnates connected with the and technicalities. Earl never keeps tab of the games, but can describe the plays weeks, months and even years after they have occurred. His memory of baseball have occurred. His memory of baseban events that transpired many years ago, even to details, is simply remarkable. His is a reference library of useful infor-mation for all the baseball players who manior for all the baseball players who are hunting up some fact in connection with the history of the game, and, withal, he is, like Hanlon, master of the game, Hanlon's success is due to his fine dis-crimination of the strong and weak points a player, and he seldem errs in his analysis. Therefore, every man on his team is an artist in his position. If the National League would relegate the duty of making "by-laws, rules and regula-tions" to these two gentlemen we would have a code of laws characterized by common sense, that would make the nanal game a thing of beauty and a joy

For the remaining six innings Swaim was an enigma to the Colts and only two hits were secured off his delivery.

Up to the seventh inning Thornton was nvincible, and the Senators went out in me, two, three order, without a single hit. Selbach broke the spell in this inning by a beautiful bunt, the ball dropping about two feet in front of the homplace. Anderson and Rietz then followed with clean singles and the first run for long fly to Isbell.

When Tom Burns next attempts to play any such trick, he should not do it in such a bungling manner. For the attempter dirty work of yesterday, which has no place in a legitimate game of ball, the visitors were roundly hissed and jeered by the speciators.

WITH THE WHEELMEN.

The talk of building a quarter-mile mod ern bicycle track, in the heart of the town is being revived. Last fall it was proposed to get a five-year lease on the grounds of the old Van Ness property the ball to Wrigiey, forcing Thornton out at Seventeenth and C Streets, tear down the ancient mansion, and take in the whole field with a track. The lease of the grounds is now held by the Columbia Athletic Club, and some of the members of that organization were the prime movers in the project. Everything was sup posed to have been ready to commenc the building of the track by early Spring but there was a blich in the arrange ments. Now the talk of building the course is being revived, but nothing can hardly be done this season. It is claimed that there is a plenty of money behind the project, and that when the work is started there will be very little delay n completing it. The cost is estimates WASHINGTON- AB. R. H. O. A. to be between \$10,000 and \$15,000. It is possible that Fred Sims may have nother chance against Cissac, the Frence rider, who managed to defeat him several weeks ago in Baltimore. The sec-ond match race, if it comes off at all, will be in this city. Sims, it is understood, is anxious and willing to meet the stood, is anxious and willing to meet the Frenchman, believing firmly that he can defeat him. Negotiations for such a match are contemplated being made by the management of the Park Bicycle Club, the race to come off the latter part of this month, or the fore part of August. As Sims is now a member of the Eclipse team, he will be furnished with excellent pace in such a contest. His first defeat at the hands of the French rider was attributed by the press of Ealtimore was attributed by the press of Baltimore most critical part of the event, otherwise to be due to his pace giving out at the he would have come out victor in easy That the race was close is evi denced by the fact that the Washington boy was defeated by only a few feet, not over the length of two wheels,

Oregon Fired 1.776 Shells.

Some idea of the awful rain of shells which were fired into the doomed Spanish ships on July 3d by the American warships may be gained from the number of shells fired by the battleship Oregon. Between the short interval of the first approach of the enemy's vessels at the entrance of the harbor of Santiago until their destruction there were fired 1.776 shells. Of these the big thirteeninch guns were fired thirty-four times, the eight-inch twemty-eight times, and the six-inch twenty-eight times, and the six-inch twenty-eight times, are as a case of hot shot for the Spaniards, but it will be a case of Heurich's beer for you by 'phoning six-thirty-four. M'COY ARRIVES IN GOTHAM. He Is Booking Trainers for His Mill

With Corbett. New York, July 13.-Kid McCoy came to town tonight on an unexpected visit from Ballston. His arrival was chiefly arrange all the minor details of his training. He has opened negotiations to have the services of Ten Eyek, the oarsman. He is of the opinion that Ten Eyek will be of much benefit to him. Besides Ten Eyck, McCoy will be looked after by Doc Paine, Con Reflly and Tom Lansing, of San Francisco, McCoy still insists on fighting Corbett on no other conditions than breaking clean. McCoy thought that such men as Bat Masterson, Prof. John Duffy, George Siler or Honest John Kelley would make desirable referees but he has no preference.

Dave Blanchard, of Boston, has been greed upon as stakeholder. As soon as the uncertainty concerning the question o. how the men will fight is removed, \$7, 500 will be placed in his hands. This will represent \$2,500 from both Corbett and McCoy, and \$2,500 from the club. balance of the stake money, \$17,500, will be in Blanchard's possession a week be fore the mill is held.

Ed Kearney will make good Corbett's deposit. Nat Fenton, of Buffalo, is backing the Kid.

Billy Gray said today that September 10 and been mutually accepted by the principals as the date on which the fight will come off.

It was agreed that the winner should take all the purse. There will be a meeting tomorrow at which Corbett will be present, and the "striking in clinches" will come up for
